NEAT Electronics

NEAT Electronics produces comprehensive accessories and solutions for care of vulnerable individuals.

Designed for use by care facilities and elderly living independent lives, the NEAT products have also been integrated into custom solutions for industrial applications in New Zealand, by SAFETRACK.

NEAT products function on wireless radio frequencies, which means no wired installation is required, flexibility for temporary setups or rearrangements, coverage anywhere within range, and the ability to integrate with current hard wired nurse call systems.

Solutions

Outpatient Care
Dementia Systems
Nurse Call Systems
Rest Homes
Hospices
Telecare
